

COVID-19 Weekly Situation Report: State Overview

Previous week (October 8, 2021 - October 14, 2021)

Published October 15, 2021

All data are provisional and subject to change. Data include only Florida residents.

Case data	Previous week	Cumulative
Total	19,519	3,620,562
New case positivity	3.8%	21.1%
Deaths	123	57,859

Vaccine data	Previous week (doses administered)	Cumulative (people vaccinated)
Total	243,220	13,790,450
First dose	55,445	1,726,325
Series completed	82,661	11,315,689
Additional dose	105,114	748,436

See additional notes at the end of this report for information on positivity rate, deaths, and vaccination status.

Vaccine age groups	Population	Vaccinated
Total (12+)	19,119,043	72%
12-19	1,972,084	55%
20-29	2,744,987	54%
30-39	2,784,698	63%
40-49	2,669,253	72%
50-59	2,925,172	77%
60-64	1,438,783	84%
65+	4,584,066	89%

New cases for the past 10 weeks

New case positivity for the past 10 weeks

Number of doses administered in the past 10 weeks

COVID-19 Weekly Situation Report: Vaccination Impact

Previous week (October 8, 2021 - October 14, 2021)

Cases and cumulative people vaccinated

All ages 12+

Weekly case count

Cumulative people vaccinated

Ages 12 to 19

Ages 20 to 29

Ages 30 to 39

Week start date

COVID-19 Weekly Situation Report: Vaccination Impact

Previous week (October 8, 2021 - October 14, 2021)

Cases and cumulative people vaccinated

Ages 40 to 49

Weekly case count

Cumulative people vaccinated

Ages 50 to 59 years

Ages 60 to 64 years

Ages 65+ years

COVID-19 Weekly Situation Report: Data Notes

Previous week (October 8, 2021 - October 14, 2021)

General notes

All data are provisional and subject to change. All data exclude persons known to reside outside Florida.

Population data are based on the 2021 population estimates from Florida CHARTS: www.FLHealthCHARTS.com/FLQUERY_New/Population/Count.

Previous week runs from Friday through Thursday. Weekly reports are published on Fridays.

Case notes

Case and death counts include individuals who meet a standardized national surveillance case definition. For more information on Florida's surveillance case definitions, visit www.floridahealth.gov/diseases-and-conditions/disease-reporting-and-management/disease-reporting-and-surveillance/_documents/covid-19-case-definition.pdf.

Other race includes Asian, native Hawaiian/Pacific Islander, or other.

New case positivity

New case positivity, based on the number of people for whom the department received PCR or antigen laboratory results, is the number of people who test positive for the first time divided by all the people tested that week, excluding people who have previously tested positive.

Vaccination notes

Data in this summary pertain to COVID-19 vaccines approved by the U.S. Food and Drug Administration and have been issued an Emergency Use Authorization (Janssen COVID-19 Vaccine, Moderna COVID-19 Vaccine and Pfizer-BioNTech COVID-19 Vaccine). These data summarize the number of people who have received either their first dose or have completed the series for a COVID-19 vaccine. A person can only be counted in one category, first dose, series complete or additional dose. For persons receiving Moderna or Pfizer vaccines, once they receive their second dose, they are moved from the first dose column to the series completed column. Once a person receives their additional dose, they are moved from the series completed column to the additional dose column. Because of this, the total in each category may show a change from report to report not matching the totals from the previous week. Persons receiving Johnson & Johnson vaccines will always be counted in the series completed column. The age group table displays the current percentage of people in an age group who have received at least one dose of the Moderna or Pfizer doses or one Johnson & Johnson dose. The total line is the current percentage of the eligible population (ages 12+).

First dose: current number of people who have only received their first dose of the Moderna or Pfizer vaccine.

Series complete: current number of people who have received both Moderna or Pfizer vaccine doses or one Johnson & Johnson dose and are considered fully immunized.

Additional dose: current number of people who have received an additional dose of Pfizer-BioNTech COVID-19 vaccine or Moderna COVID-19 vaccine. This dose is recommended for persons with moderately or severely compromised immune systems.
